This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth below or on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures.

The sequence ID numbers that appear in the claims do not correspond to the sequence ID numbers in the specification or those in the paper copy of the sequence listing. Consequently, the application does not comply with 37 C.F.R. 1.821(d). Applicant must supply an appropriate amendment to the claims and/or to the specification, or possibly a substitute CRF and copy of the sequence listing, so that the all Sequence ID Numbers accurately correspond, as well as a statement that the content of the paper and computer readable copies are the same and contain no new matter.

Applicant is given ONE MONTH, or THIRTY DAYS, whichever is longer, from the mailing date of this letter within which to comply with the sequence rules, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a). In no case may an applicant extend the period for reply beyond the SIX MONTH statutory period. Direct the reply to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the reply.
